DECEMBER 1987

Alberta
**ECONOMIC DEVELOPMENT
AND TRADE**

Office of the Minister

407 Legislature Building, Edmonton, Alberta, Canada T5K 2B6 403/427-2134

Dear Readers:

In 1986, Alberta's economy was challenged by several factors important to our export performance. Yet, despite a decline in energy and agricultural commodity prices, our performance remained strong in terms of quantity of exports, and the province attained total export sales of $10.5 billion.

The United States remains our largest trading partner, accounting for almost 72 percent of all Alberta exports. However, impressive gains have been made in exports to other countries such as the U.S.S.R., South Korea and Morocco. These breakthroughs indicate the continued diversification of Alberta's export markets and reflect the ability of Alberta businesses to compete in the world marketplace.

This publication represents the amalgamation of 'Country Profiles' and 'Export Performance' into one complementary document, providing readers with a comprehensive view of Alberta's international trade picture.

In the coming years, new opportunities will be created by the Canada/United States Free Trade Agreement and the General Agreement on Tariffs and Trade. Alberta businesses will continue to explore these opportunities, and all Albertans will ultimately benefit through the continued development of an internationally competitive economy.

Larry Shaben

Larry R. Shaben
Minister

COUNTRY PROFILES

INTRODUCTION

Over the years, international trade has become a fundamental part of the Alberta economy. Accounting for approximately 1/5th of the province's gross domestic product, trade supports a substantial number of businesses and jobs in Alberta.

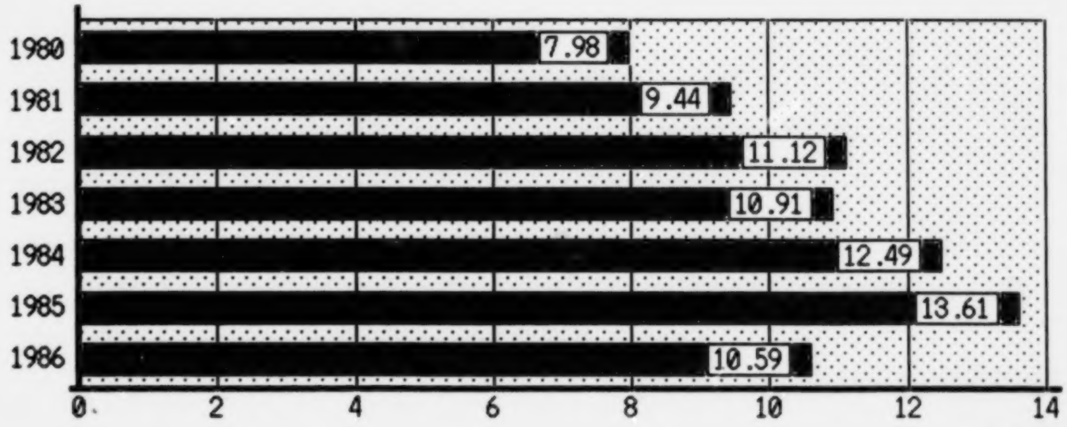
This publication provides industry, government, and the general public with information about Alberta's imports/exports, their composition and their origins/destinations. Its purpose is to act as an indicator to the direction in which Alberta's economy is moving, allowing business decisions for expanding trade operations to be made accordingly.

The primary source of data used within is Statistics Canada. Figures for grain exports are provided by Alberta Agriculture since Statistics Canada quantifies grain exports by the point of export. For 1986, Alberta Agriculture estimates increased agriculture exports by $101 million to $1,557.9 million.

ALBERTA EXPORTS

In 1986, the total value of Alberta exports exceeded $10.5 billion. This decrease of 22% from the previous year is primarily due to the fall in world energy prices. For example, while the quantity of crude petroleum which Alberta exported increased by 22% during 1986, the corresponding value fell by about 35%, or more than $1.5 billion. Similarly, the value of natural gas exports fell by $1 billion or 31%, corresponding to only an 11% decrease in quantity.

ALBERTA'S EXPORT PERFORMANCE
1986



BILLIONS $

Of the more than $10.5 billion worth of goods which Alberta exported in 1986, almost 72% were destined for the United States market. The major commodity group represented was crude materials, at 60.9% of the total, down from 66.3% in 1985. Significant amounts of commodities from other groups were also exported including fabricated materials, which accounted for 20.2% of the total and agricultural products accounting for 14.7% of all exports.

TRADE PERFORMANCE

Exports are a critical component in Alberta's economy, since 1/5 of all that we produce is shipped to world destinations. This compares favourably to export/gross domestic product ratios of other Canadian provinces. As well, Alberta's ratio is substantially higher than some industrial nations such as the United States and Japan. It should be noted that the ratio for Alberta would be even higher and therefore Ontario and British Columbia lower, if all exports were directly attributed to the province of origin. More importantly, these figures disclose a competitive level of export activity for Alberta on a national and international basis.

Exports as a Percentage of GDP, 1986

Country	Percentage	Year
Canada	24.6	1986
United States	7.0	1986
Japan	13.1	1986

SECTOR EXPORTS

For 1986, the percentages of the major commodity groups have changed in most cases. Crude materials decreased to 60.9% of total exports from 66.2% the previous year. This drop was balanced by gains in fabricated materials (at 20.2%), agriculture (at 14.7%) and end products (31.9%). Special transactions and trade remained stable at 0.3% of the total. Crude petroleum and natural gas accounted for 80% of crude material exports, and 49% of all exports. In fabricated materials, the most significant commodity categories are chemical petroleum and coal products, and wood and paper, accounting for 61% and 16% of these categories respectively.

Agricultural products declined slightly (5%) to just over $1.5 billion. While wheat exports fell by 29%, exports of barley and cattle grew by 101% and 25% respectively.

Alberta Exports by Major Commodity Group, 1985-1986

	1985 $ Million	%	1986 $ Million	%

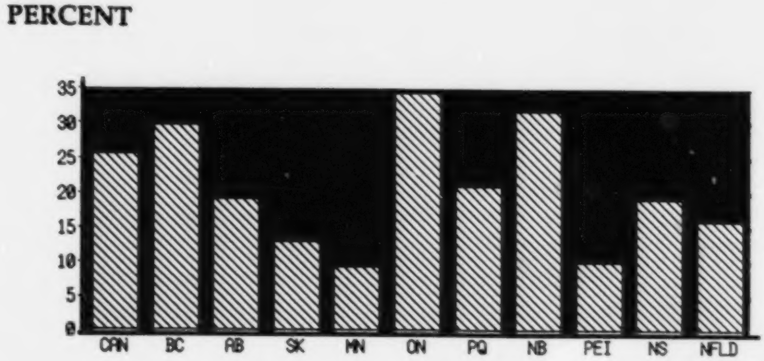
EXPORTS AS A PERCENTAGE OF GDP
1986



COMMODITY EXPORTS

The order of Alberta's top 5 commodity exports remain unchanged for 1986. Crude petroleum, natural gas, sulphur, wheat and coal account for 66% of all Alberta exports, down from 72% of last years total. This may indicate a moderate shift away from crude exports in favour of manufactured goods. However, as mentioned previously, while the quantity of crude petroleum and natural gas exports remained relatively stable, their value decreased significantly. This may result in a distortion in the comparison of the commodity groups on a percentage basis.

ALBERTA EXPORTS 1986

Export Markets

The United States remains the primary destination for Alberta exports in 1986, absorbing 71.8% of the total. The Asia/Pacific Rim market received a larger share of Alberta's exports in 1986, but declined 14% from 1985's total. Similarly, the Middle East/North Africa took a larger share of total exports although the value fell from $362 million to $338 million. Exports to East and West Europe exhibited strong growth in 1986, increasing in terms of dollars and percentage of total exports. The region accounted for 7.3% of the total or $774 million. Exports to Latin America remained stable at $311 million while those to Africa dropped by 28% to $73 million.

1986

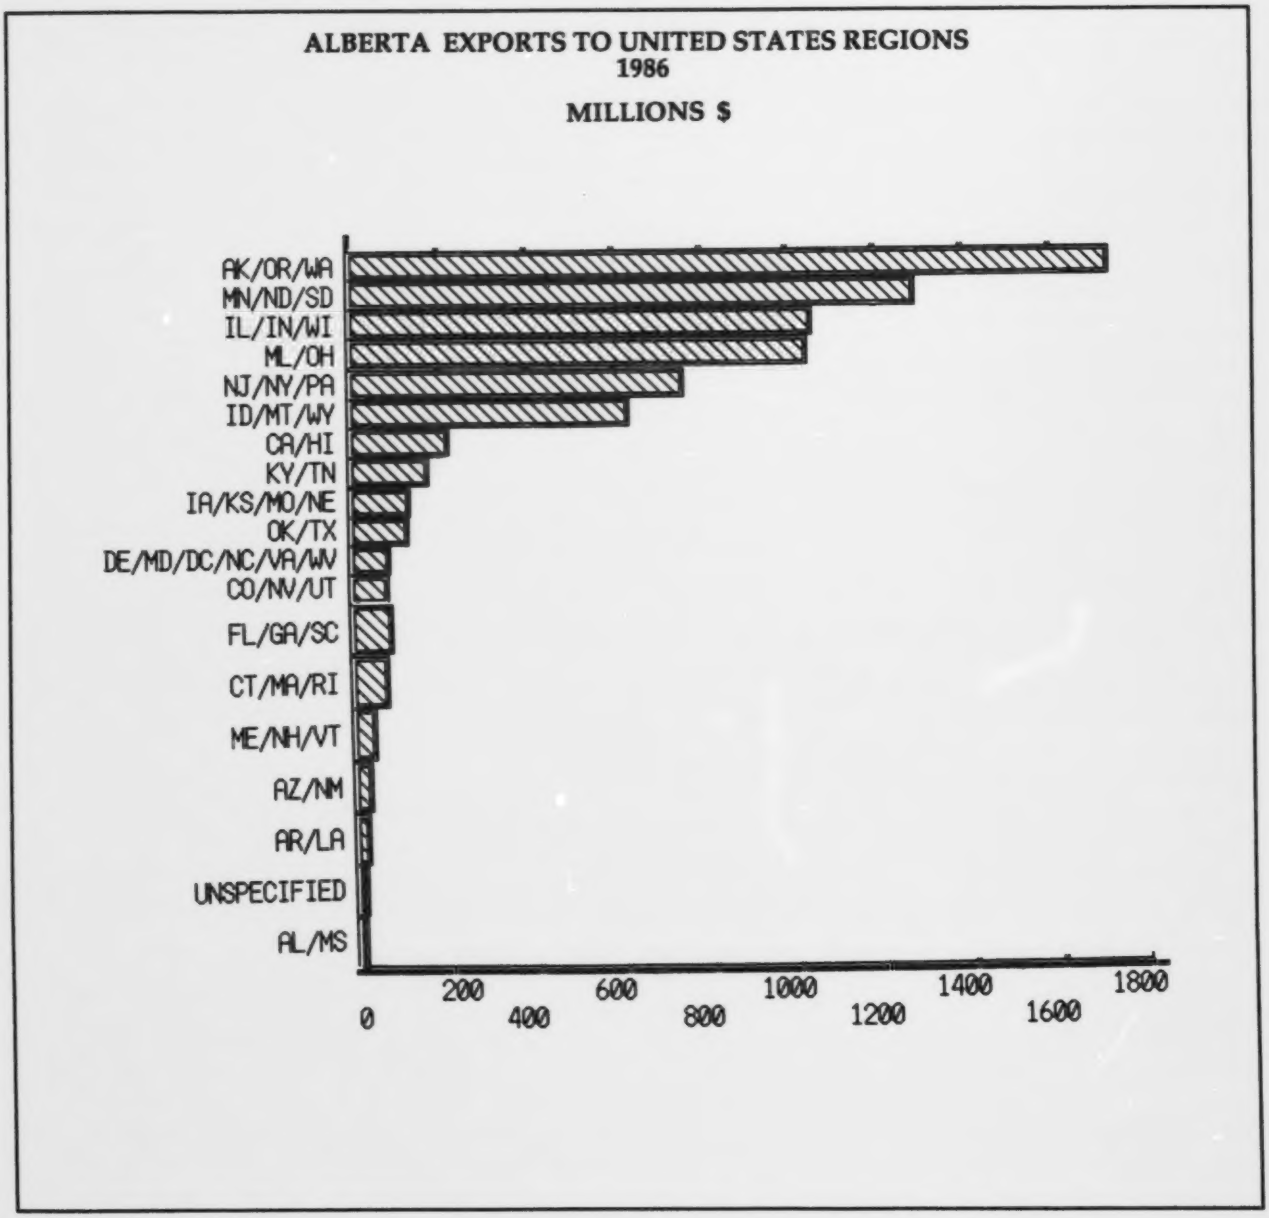
MARKET SPOTLIGHT

The United States

The United States remains Alberta's most important export market for 1986 accounting for 71.8% of the province's export commodities for a value of more than $7.5 billion. While the quantity of goods shipped remained relatively stable, the total value of exports fell, due primarily to the decrease in world energy prices. Exports which experienced the largest growth included: cattle (65%), Urea (40%), and pork (36%).



ALBERTA EXPORTS TO UNITED STATES REGIONS
1986

MILLIONS $

Asia/Pacific Rim

This region continues to grow as a major export market for Alberta, accounting for 13.8% of the Province's exports, which is up from 12.5% in 1985. Similar to the United States market, total dollar value of exports decreased along with world energy prices. Japan remains the dominant destination for Alberta exports, but experienced an 11% decline from 1985's level. Meanwhile, the market in South Korea grew by 17% in 1986, moving to the number two status in this region followed by China, Taiwan, and Australia. Agricultural commodities compose the bulk of exports to the region, and have generally experienced large gains.

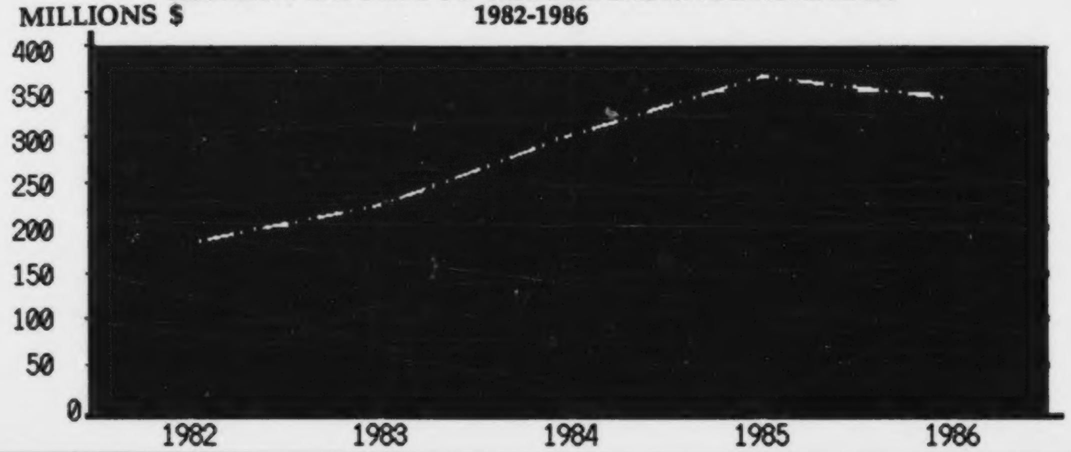
ALBERTA EXPORTS TO MIDDLE EAST/NORTH AFRICA
1982-1986



Africa

Alberta's exports to Africa reached their peak in 1985 at $101 million. In 1986, that figure fell by almost 28% to just over $73 million. *The primary reason for the decrease stems from a* decrease in trade with South Africa. This alone accounts for 38% of the decline. On the plus side, exports to Ghana, Tanzania, and Zaire, increased, although the dollar amount of these gains were small.

ALBERTA EXPORTS TO AFRICA
1982-1986

Latin America

Alberta exports to Latin America remained constant last year compared to 1985, although many changes occurred with the individual countries. The largest gains over 1985 are seen in Argentina (266%), Columbia (98%), and Peru (598%). Brazil remains the largest market in the region, followed by Cuba, Mexico and Chile. These large increases are mainly accounted for by gains in wheat and sulphur exports. While exports to Brazil fell by 15% in 1986, the remaining three countries experienced modest growth.

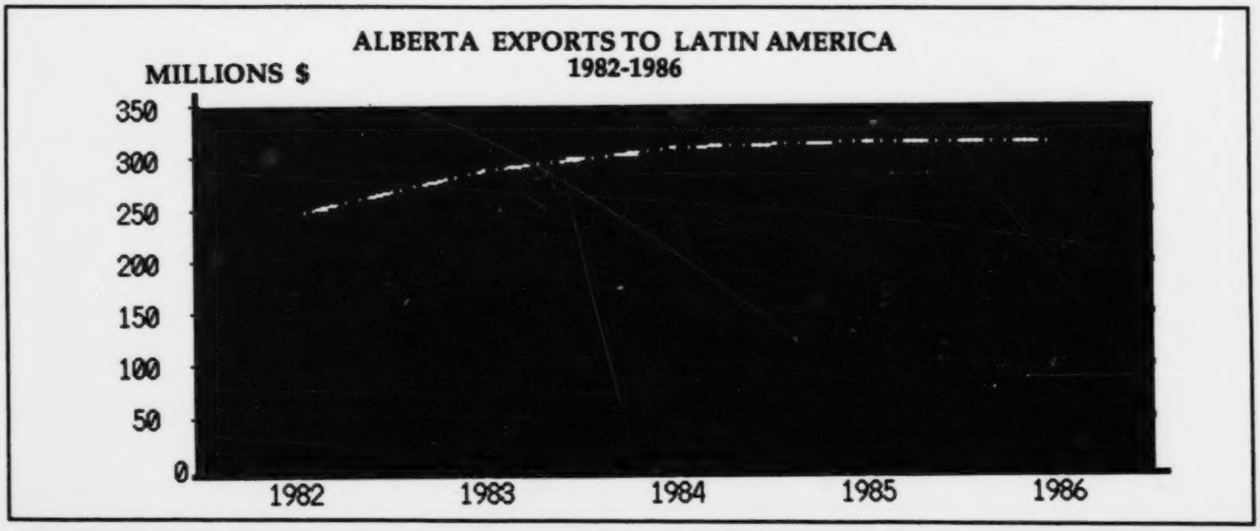
1 Includes grain exports for 1983 - 1985.



Eastern Europe

In 1986, exports to Eastern Europe experienced a dramatic increase primarily due to sulphur and wheat shipped to the Soviet Union. Barley and wheat exports to East Germany also increased significantly. For the first time, Alberta sold barley to Bulgaria, increasing exports to this country by almost $8 million from the previous year. The USSR remains the primary destination for Alberta exports in Eastern Europe, with a 60% increase over 1985's level. East Germany, Romania and Bulgaria are the next three most significant markets, all of which experienced growth.

European Community

Exports to this region experienced the largest growth rate reaching 11% in 1986. The United Kingdom remained the major destination with a 13% rate of growth, followed by the Netherlands, France and Belgium/Luxembourg. Exports to Portugal increased considerably due to new sales of wheat and barley to this country. The top three commodities shipped to the European Community in 1986 were sulphur ($69 million), wheat ($40 million) and coal ($8 million).

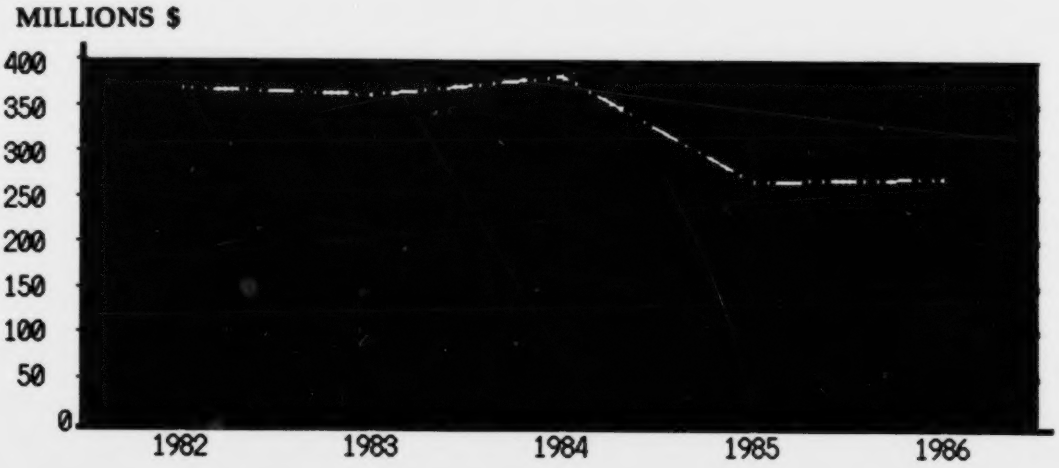
ALBERTA EXPORTS TO EUROPEAN COMMUNITY
1982-1986



COUNTRY PROFILES 1986

A dash in the tables indicates either a value below one thousand or zero. The sum of a column may not add up due to rounding.
The average annual percentage change calculation found at the bottom of each profile was calculated using a compound interest method

GLOSSARY

Glossary

bbl.	volume in barrels (for petroleum, thirty-five gallons or forty-two United States gallons)
cwt.	weight in hundred weights of 100 lb. each
cwtad.	weight in hundred weights of 100 lb. each; air dried
doz.	number of dozens
doz. pr.	number of pairs in dozens
gal.	volume in Canadian gallons (one United States gallon = 0.83 Canadian Gallon)
lb.	weight in pounds
mbf.	volume in thousand board feet
mcf.	volume in thousand cubic feet
mt.	metric ton (tonnes) of 1,000 kg. or 2204.6 lbs. (one metric ton = 1.1 short tons)
nes.	not elsewhere specified
pr.	number of pairs
p. gal.	volume of alcoholic content in terms of Canadian gallons of the strength of proof (one United States p. gallon = 0.74 Canadian p. gallon)
sq. ft.	volume in square feet of 1/4" thickness, other thickness to be converted to the equivalent of 1/4" thickness (e.g. 10,000 sq.ft. of 1/8" plywood = 5,000 sq. ft. of 1/4" equivalent)
ton.	weight in short tons of 2,000 lb. (one short ton = 0.91 metric tons) (one short ton = 0.89 long tons)
